

PRODUCT OWNER (m/w/d)

 <p>LEVEL Manager</p>	 <p>WORKPLACE Hybrid (Winterthur, Home office)</p>
 <p>JOB START Immediately or by arrangement</p>	 <p>EMPLOYMENT CONTRACT 100% (permanent)</p>

In a nutshell

We are looking for a Product Owner to join our Product Team and help us develop the next big thing. It starts Immediately or by arrangement. It is an exciting role in an impactful team where you are part of strategic decision-making and take responsibility from day one.

collectID

We are the truth behind the product. collectID is the product authenticity and customer engagement ecosystem. We protect brands and transform products into superior communication and sales channels. collectID patented technology offers a unique combination of NFC tags and blockchain to deliver the first fully secure product authenticity ecosystem. [Learn more about our technology.](#)

We value innovation, collaboration, and curiosity. We strive to develop all our employees to reach their full potential. We are proud to work with clients worldwide in the sports and fashion industries.

We are usually in the office three days a week and two days working from home. Additionally, working from other places can be possible depending on the tasks and mutual agreement.

The role

We are looking for a Product Owner to plan and manage the development of our mobile apps, user-facing web tools, API, and backend services. You should be a team player with a keen eye for detail, problem-solving skills, and experience in agile product development. We are a startup; hence you will get a chance to be involved in everything we do.

Responsibilities

- Serve as the voice of clients and users.
- Plan, prioritize, and manage product development and product feature backlog.
- Assess value, develop cases, and prioritize stories, epics, and themes to ensure work focuses on those with a maximum value aligned with product strategy.
- Develop detailed product feature specifications and ensure team members clearly understand them.
- Evaluate and propose improvements to the current product development process to deliver features at constant velocity.
- Lead the product-release plans and set expectations for the delivery of new functionalities.
- Run scrum processes.

- Solve product-related problems, make decisions, and complete trade-off analyses to stay on track toward business deliverable commitments
- Mitigate roadblocks to achieving sprint/release goals.
- Act as an ambassador for the product internally and externally and as the primary contact for queries related to the product.
- Develop a customer-request framework to support the business development team in pre-sales.
- Represent the team in front of stakeholders, clients, or users.

Minimum Qualifications

- Bachelor's degree in Computer Science, Information Technology, related field, or equivalent practical experience.
- Three or more years of experience in agile product development.
- Practical knowledge of agile development processes.
- Overall understanding of cloud-based services and mobile applications.
- Understanding of business value related to features and functions.
- Excellent organizational and communication skills and the ability to influence.
- Sharp analytical and problem-solving skills.
- Ability to effectively manage conflicting needs of stakeholders.
- Attention to detail.
- Ability to be comfortable with ambiguity in a fast-changing environment.

Preferred Qualifications

- Experience in one or more of the following: Scrum, Jira, design thinking, mobile app development, blockchain, NFC.
- Passion for sports and/or fashion

Our core values

- Everyone has a voice.
We look to the people with the most knowledge, listen hard, and choose the best way forward.
- We go the extra mile.
We are more motivated, work harder, and do more than our competition. If we don't do this, we don't stand a chance.
- Everyone makes an impact.
If you work here, we trust you to create value. We're counting on it.
- We learn from everything.
Win or lose, sale or no sale; we do our best to learn from every experience.
- Authentication for everyone.
Our system is built on highly complex technology. Our job is to make all that complexity easy to use for regular people.
- Authentication for everything.
Every product has its own truth; where and how it was created and by whom. We're here to make this truth accessible.

WE ARE THE TRUTH BEHIND THE PRODUCT

How to apply

You must be **legally authorized to work in Switzerland** (Swiss citizen, EU/EFTA citizen, Swiss residence permit holder) to apply for this job.

Apply by email to Sergio Muster (Co-founder & Chief HR Officer, career@collectid.io). Include your resume, cover letter, and current notice period.
